

SmartTrack HD Streaming Webcam

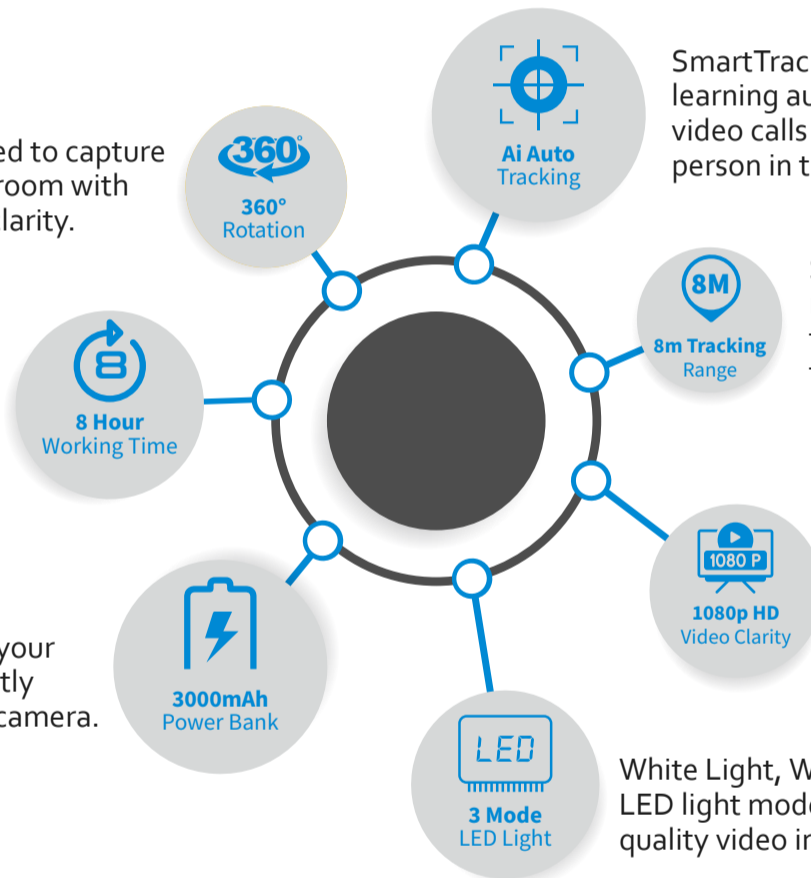

Vision-HD

Have your own videographer with Vision-HD, an Auto-Tracking streaming webcam. The webcam is equipped with Motion Tracking Technology; it automatically detects the movement of the closest person and performs intelligent tracking. No app or Bluetooth connection required; connect the device to a PC/Laptop or place your phone on the stand, and you're ready to get recording HD quality video.

Vision-HD is designed to capture every person in the room with phenomenal video clarity.

The built-in 5000mAh battery lets you cut the cord entirely and record wirelessly.

Dock and charge your smartphone directly through the web camera.

SmartTrack technology with Ai learning automates tracking during video calls or live streams, keeping the person in the center of the frame.

Suitable for large conference rooms or your small office, the SmartTrack technology tracks in any environment.

HD lens and smooth autofocus ensure that everyone in the room is seen in brilliant, sharp, clear video quality.

White Light, Warm Light, and Dual Toned LED light modes let you capture pristine quality video in any environment.

IC	T20+F37	USB Output	5V, 0.5A	Signal Noise Ratio	> 50dB	Camera Range	0.5-8m
Image Sensor	JX-F37	Cable Length	1.5m	Input Type	Micro-USB	Video Output	YUV
Resolution	1920*1080P	Working Time	>8 hours	Built-in mic	Stereo	Working voltage	5V, 2A
Effective Pixels	2MP	Frame Rate	30FPS	Battery	Li-ion 2x1500mAh	Protocol	UVC/UVA
Led Light Brightness	100lm (Single)/ 180lm (Dual)	OS support	Windows 10/8.1/7, Mac 10.7 and above	Field of Vision	92.1° (Horizontal) 48.8° (Vertical)
